

# Summer Reading Camp!!!

## June 28, through August 20, 2010

Excitement and anticipation are growing. Last year our camp helped eight children and their families. Reports of incredible advancements and accomplishments throughout the School Year have brought us great joy. Most of the staff from last Summer's Camp have called and are ready to return for another Summer of involvement in this program. The Snohomish First Presbyterian Church is willing to share their space once again.

The Center has made contact with local schools and their administrators are excited to share our program with the parents of their students. A flyer and the Program Brochure have been made available in both paper and electronic forms with permission from the School District. We are gearing up for what feels like an exciting Summer.

Please contact individuals and groups and ask them to consider a scholarship gift or to sponsor a child they may know who might benefit from the Summer Reading Camp.

We are pleased to announce that the Samaritan Center of North Puget Sound in partnership with the Snohomish First Presbyterian Church is hosting an eight-week day camp. We have purchased a license to the **Fast For Word Reading** program for children, thanks to a grant from the Snohomish Kiwanis. We have also been able to cover our expenses for the last year with a Grant for new mission projects through the Presbytery of North Puget Sound.

**Fast ForWord**  
*Gateway Edition*

Based on over 30 years of brain research, the Fast For Word products have helped over 100,000 students boost reading and language skills, leading to improved learner performance. Parents often notice increased communication skills and increased self-esteem in and out of the classroom.

Each computer-based product accelerates learning by developing cognitive skills, memory, attention, processing, and sequencing, "Learning MAPS". Through frequency, adaptivity, simultaneous development, and timely motivation, the FAST Power Learning formula, reading and learning improve. Results are apparent in weeks, not years.

### What does the Fast For Word family of products do for your child?

- Develop the foundational, cognitive skills that are critical for reading and learning
- Improve ability to follow directions
- Build listening skills
- Increase engagement in classroom discussions
- Generate new excitement for learning
- Increase self-esteem and confidence in learning

If you or your group/organization are interested in sponsoring a child or making a donation for a scholarship, call our office to make arrangements for your gift.

We can accept Visa, MC or Discover over the phone.

If sending a check please note : FFW Scholarship Gift.
